FACT

There's nothing likable about stumbling around, passing out, or puking on yourself. Drinking alcohol can also make your breath smell bad and cause you to gain weight.

MYTH

Drinking is a good way to loosen up at parties.

FACT

Drinking is a dumb way to loosen up. It can make you act foolish, say things you shouldn't say, and do things you wouldn't normally do. In fact, drinking can increase the likelihood of fights and sexual assaults.²

MYTH

Alcohol isn't as harmful as other drugs.

FACT

Your brain doesn't stop growing until about age 25, and drinking can affect how it develops.³ Plus, alcohol increases your risk for many diseases, such as cancer.⁴ It can also cause you to have accidents and get injured, sending you to the emergency room.⁵

There's no magic cure to help you sober up. On average, it takes 2 to 3 hours for a single drink to make it through your body.⁷ And there's nothing you can do to make that happen quicker.

MYTH

There's no reason to wait until you're 21 to drink.

FACT

When you're young, drinking alcohol can make learning new things more difficult.⁸ Also, people who begin drinking before they turn 15 are more likely to develop a drinking problem at some point in their lives than those who begin drinking at age 21 or older,⁹ when it is legal to drink in all states and Washington, D.C.¹⁰

FACT

All states and Washington, D.C., have 21-year-old minimum-drinking-age laws.¹¹ If you get caught drinking, you might have to pay a fine, do community service, take alcohol awareness classes, or even spend time in jail.
