

## Direct Prevention

**Please fill out the following information for all direct prevention programming provided from August 1, 2018 to July 31, 2019. This can be submitted as one per organization or by each person that did direct prevention program implementation for your organization. However, each session should only be reported once, and all sessions implemented by your organization should be reported. The link embedded in the survey or the attached document can be shared. Each time prevention was implemented should be reported separately, for example if 5 sessions of Too Good for Drugs was provided for one class of 3<sup>rd</sup> graders at the Happy School, that is one entry. This information is needed to report the role of community organizations in providing direct prevention programs.** Instructions for each box will appear when the mouse is hovered over the box.

Organization	First Name	Last Name	Email Address	Phone Number
--------------	------------	-----------	---------------	--------------

<u>#1</u>	School/Site Name	Number of Unique Individuals	Number of Sessions Provided	Targeted Group/Location	Special Population Served
-----------	------------------	------------------------------	-----------------------------	-------------------------	---------------------------

Primary Intended Topic Area	Age/Grade of Audience	County	Prevention Program/Curriculum
-----------------------------	-----------------------	--------	-------------------------------
