DRUG PRICE LOOKUP TOOL:

- You are able to see the FamilyWize price of your prescription(s) by either going to [familywize.org](https://www.familywize.org) or by downloading the free FamilyWize app. **Simply enter your drug name, dosage and zip code to find the lowest price within a 10 mile radius.**

HOW IT WORKS

FamilyWize negotiates fair drug prices directly with major pharmacies like CVS, Walmart, and Walgreens. We pass the savings onto our members, free of charge.

To start saving with FamilyWize, a member just needs to show the savings card to their local pharmacist whenever they fill a prescription at a participating pharmacy. The discount will be automatically applied to the retail price of the drug.

Members can use their card as often as they want. Cards do not expire. Cards may also be used for family members' prescriptions and shared with friends.
